fax 937-743-8041

mail@waytekcorp.com

- A matched set of overlay is a top sheet "A" and a bottom sheet "B"
- Arrows must be in the same direction on both rolls
- Coated side is placed toward the corestock
- Always perform a single sheet test lamination before collating the entire job

Tape Laying: If rolls are to be rewound for magnetic stripe tape laying, be sure to rewind the roll a second time to return rolls to their original orientation.
